

MOUNTAIN FAMILY DINNERS

When everyone else has left the slopes for the day, we open up the gondola and mid-mountain just for you and your family to explore. The Lodge at Big Springs transforms into a family adventure like no other. You'll be greeted with warm wine and hot cocoa, a healthy and fun dinner spread, ooey gooey s'mores around the fire pits and a professional family picture to remember the night by. Because the best gift is simply spending more time together. All aboard the gondola for this unique dining experience!

PLATINUM FIRST TRACKS

Platinum First Tracks almost sounds like a dream when you think about it. The mountain sits meticulously groomed to corduroy perfection, you meet an expert guide who signals for the gondola to power up long before the resort opens to the public and the sun rises while you float down the hill, no one in sight. You hit the bottom of the hill, load back on the lift and again the hill is all yours. It's the kind of morning where you remember why you love skiing so much, why Tahoe is such a special place. And after the morning of incredible skiing a breakfast spread awaits in Zephyr Lodge where you can fuel back up, but who needs coffee at this point, you just had 2 hours of a natural caffeine kick. It's that type of morning.
